

G-Series - TC G630

Designed to Go Above and Beyond

The G-Series from Stratodesk is known for desktop-like power, efficiency, and reliable connectivity options along with maximum flexibility.

With an extremely powerful AMD Quad-Core 2-2.2 GHz CPU and 4 GB DDR4 dual channel RAM, the TC G630 offers unmatched performance to support your business now and in the future. The integrated AMD Radeon graphics engine supports up to two UHD/4K displays for a fantastic media experience. Keep the peripherals you know and trust and plan ahead with connections that include PS/2, serial ports and convenient front and rear USB 3.0 and USB 2.0 Ports.

The combination of powerful, long life-cycle HP hardware and the intelligent, versatile software from Stratodesk allows the TC G630 to meet and exceed average desktop computing and virtualization requirements. The G630 comes with Stratodesk's award-winning NoTouch OS pre-installed, and supports a wide variety of VDI-protocols and connection brokers such as Citrix XenApp/XenDesktop with HDX, VMware Horizon View with Blast Extreme and PCoIP and Microsoft Remote Desktop Services. With its full multimedia capabilities, enhanced security features, integrated Firefox Browser and unbeatable peripheral support, NoTouch OS sets new standards in thin client computing.

Stratodesk's intuitive, feature-rich NoTouch Center management solution offers enterprise-grade centralized management designed specifically for the management of Thin Client networks and repurposed PCs.

The G-Series from Stratodesk offers the energy-saving high-quality hardware of Hewlett-Packard, including a 3-year pick-up and return warranty.

TC G630 at a Glance

- » NoTouch OS
 - the leading secure Linux-based thin OS
- » AMD GX-420GI quad-core (2-2.2 Ghz)
- » Radeon R6E - UHD/4k display capability
- » 4 GB DDR4 dual channel SDRAM
- » 8 GB flash memory
- » Noiseless and fanless
- » Long life cycle, no moving parts
- » Low total cost of ownership (TCO)
 - No disposal costs within the EU
 - Maintenance-free
- » ENERGY STAR certified
- » 3 years pick-up and return warranty
- » Free updates
- » Free email support in English and German

3-Year HP Pick-Up and Return Warranty

G-Series - TC G630

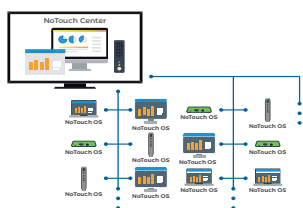

Hardware Specifications

- » **Mainboard**
 - AMD GX-420GI (2.0-2.2 GHz) quad core
 - 4 GB DDR4 dual channel SDRAM
- » **Flash Memory**
 - 8 GB
- » **Display:**
 - AMD Radeon R6E
 - Up to two displays supported
 - 2x 3840x2160 (DP 1.2 outputs)
- » **Network**
 - Onboard RJ45 Realtek GbE
 - 10/100/1000 Mbit LAN
- » **Interfaces**
 - 2x SuperSpeed USB 3.0 (front); 1x USB 3.0 (inside)
 - 4x Hi-Speed USB 2.0 (2x front, 2x rear)
 - PS/2 keyboard and mouse
 - 1x serial port
 - 2x DisplayPort 1.2
- » **Audio**
 - 3.5 mm combo line in/line out socket (back access)
 - 3.5 mm headset socket (front access)
 - Internal amplified speaker system
- » **Operational Conditions**
 - Temperature 10° - 40°C
 - 10% to 90% non-condensing humidity
- » **Power Supply**
 - 65 W external power adapter
 - Uses less than 2100 mW of power at full performance
 - World auto-sensing 100-240 VAC, 50-60 Hz
 - Energy-saving automatic power-down
 - Surge-tolerant
 - ENERGY STAR® certified
 - EPEAT Gold registered
 - Noiseless and fanless
- » **Certifications**
 - CE, CSA, UL, TÜV, RoHS, FCC
- » **Dimensions & Weight**
 - 22x4.2x24 cm (without stand)
 - 12x22x25.1 cm (with stand)
 - 1.45 kg (without stand)
- » **Warranty**
 - 3-year HP pick-up and return warranty
- » **Accessories**
 - Keyboard, mouse, stand

NoTouch OS

- » **Operating System**
 - Secure Linux-based Thin OS
 - Customizable Desktop
 - Simple operation without prior knowledge
 - NoTouch Desktop compatible
- » **VDI Protocols & Applications**
 - Citrix
 - XenApp/XenDesktop
 - StoreFront & PNAgent
 - Webinterface/Firefox Plugin
 - HDX RTME/Skype for Business
 - HDX Flash, 3D & Multimedia
 - VMware Horizon View
 - Blast Extreme, PCoIP, RDP
 - Full USB forwarding
 - Horizon Air
 - Microsoft Remote Desktop
 - RDP/RemoteFX
 - FreeRDP, rdesktop
 - Firefox Web Browser
 - Firefox
 - Flash-Player
 - PDF-Viewer
 - Kiosk Mode
 - VNC
 - Parallels RAS
 - Oracle Secure Global Desktop
 - vWorkspace
 - X11/XDMCP
 - SSH/Telnet
 - Java SE 8
 - Java WebStart & Browser Plugin
 - NoMachine Enterprise & NX
 - SPICE (optional)
 - GraphOn GO-Global (optional)
 - IBM System i Access (optional)
- » **Input Devices**
 - Barcode scanner
 - Touchscreen
 - Signature pads
 - Specialty keyboards
 - Philips SpeechMike
 - Dictation Extensions (Nuance, ...)
- » **Storage Media**
 - Local USB/CDROM/Floppy
 - Drive Mapping & Forwarding
 - Configurable access rules
- » **Monitors**
 - Dual & Multi-Monitor
 - Mirror & merged modes
- » **Administration**
 - Local Admin Interface
 - Remote via Browser
 - Shell Access via SSH
 - Screen Shadowing
 - VNC
 - TeamViewer
 - Diagnostic functions
 - Easy Update via HTTP/HTTPS
 - CUBA Module
- » **Central Management**
 - NoTouch Center
- » **Security & Single-Sign-On**
 - Imprivata OneSign
 - Evidian
 - Smartcard, RFID
 - Password protection
 - Screen lock
 - Certificate manager

NoTouch Center

Centralized thin client management made easy, with the user-friendly and efficient NoTouch Center management software. Manage configurations, roll-outs, and updates on your entire thin client network directly from your web browser.

More highlights: integrated asset management and peripheral inventory, flexible reporting tool, group hierarchy based on inheritance, and remote helpdesk. Available as a virtual appliance and as a Windows installation.

Ask your Stratodesk partner about NoTouch Center and save time and costs on the management of your thin client network.
